

George is the champion

(to Queen's 'We are the champions)

The dragon was fierce
With fire in his breath
But George took his stand
To save the princess
With sword in his hand
He charged at the beast
And praying to god, through the fire, with a shout, he cut off his head!

George is the champion my friends
He kept on fighting to the end
George is the champion
George is the champion
No time for losers
'cause George is the champion

He rode into town
The princess was safe
The people were glad
That the dragon was dead
But George prayed to God
Who gave him the strength
To ride through the fire, face the danger, kill the dragon, that we could be free!

George is the champion my friends
He kept on fighting to the end
George is the champion
George is the champion
No time for losers
'cause George is the champion.

George is the champion my friends.
He kept on fighting to the end,
George is the champion,
George is the champion,
No time for losers,
'cause George is the champion.
George is the champion
